WAR TO DEATH, VERDICT OF IRISH LEADER

LATEST MORNING EDITION

END, HE SAYS

N, Feb. 27.—A Dubli

BUENOS AIRES, Feb. 27.—The of the Tertiary period, seen by Dr. J. G. Wolf of La Plata Museum, during his explorations in Patagonia, was found near Pape
Ibanez, in the territory of Santa
Cruz. Southern Patagonia, about
twenty miles from the Atlantic
Coast, according to a statement
made today by Dr. Wolf to the
Associated Press.

The skull was picked up there
by a white settler, who since has
garding conditions in Europe.

The skull was picked up there by a white settler, who since has moved westward to the Andean region and who has it in his possession. On learning that the fossil had been found, Dr. Wolf traced the settler across the aimost tree-less plains of the pampas region which run. from the Andes to the Atlantic and found him in his new home.

Oand THE U.S.S. CALIFORNIA, Feb. 27.—After the "attack"
Call Sone fortifications and the Miraflores Locks this morning.
Fleet arrived at Balbos, anchoring seven miles out at sea.
Wornia and Mary'and, however, tied up at the docks at Falbos.
Misch against the canalerange. One hundred and six guns to a sea.

It is a.m., when the Oklamached an observing plane.

It is the California and the opened fire with their fourteen-inch batteries in The guns were trained on lumince, 36,000 yards dishar 599 rounds from beam on the objective, as the attack was over. It appeared today as if the Pacific Fleet had won another objective, as the attack on the forts had been under way for some time before the planes appeared.

The fleet is expacred to remain here for two weeks for overhaul are teing planned for the officers and men while here.

DEATH IN COMMITTEE
Republican leaders said they would move to refer the King ratification resolution to the Foreign Relations Committee, which would have the effect of killing it, since it would pass into the legislative scrap heap with the expiration of the present Congress on Sunday.

Senator King said that he would demand a roil call on all motions pertaining to the disposition of the resolution so that every Senator would be required to go on record.

"Every member of the Senate will have to toe the mark on this question," said Senator King. "It want the country to know who the true friends of the International Court of Justice are."

ANDERSON JURY WILL

Two Witnesses Testify in Inquiry About Disposal of Dry Funds

(BY A. P. NIGHT WIRE.) " V YORK, Feb. 27. — The learn from witnesses what dispos

icarn from witnesses what disposition William H. Anderson, 'State Superintendent of the Anti-Saloon League, made of \$14,700 of the league's funds, will report Friday, Acting Dist.-Atty. Pecorn announced today. He said he would present his last witness Thursday afternoon.

Miss Mary Hill, assistant treasurer and book-keeper of the league, and Miss Maude M. Odell, confidential secretary to Mr. Anderson, testified today.

Mr. Pecora said he thought it might not be necessary to call O. Bertsall Phillips, former collector for the league, who some months ago made a deposition charging Mr. Anderson with commission aplitting. He also said he did not think it would be necessary for Raymond D. Fookefeller, and John D. Rockefeller, and John D. Rockefeller, and John D. Rockefeller, Jr., to take the witness stand.

FARM LEGISLATION

SIDETRACKED AGAIN NATIONAL BANK TAX BILL IS

PUT AHEAD AND FIGHT DEVELOPS WASHINGTON, Feb. 27.—Farm

credits legislation was sidetracked today in the House for a conference report on the national bank tax bill, but Republican managers gave assurances that it would be called up tomorrow and it possible pressed to a vote at a single session.

The bank tax matter led to a five-hour fight, and a further tightening of the Legislative jam, and it is certain that much of the legislation which the rules committee has voted to give privileged atatus on the floor, will die with the sixty-seventh Congress at noon Sunday. The decision as to what matters are to be acted upon by the House after tomorrow rests largely with the leaders.

The Norria resolution proposing a constitutional amendment to advance the time of inauguration of President and the convening of the first regular sessions of a newly-elected Congress is conceiled to have only a slight chance.

Another proposed constitutional amendment, that by Representative Foster designed to give the Federal government, co-powed with the States in control of child labor, in in a similar position.

Present plans of the Republican managers are to put through the postomice omnibus bill and a sumber of measures from the military committee. Other legislation on the special rules calendar, includes an amendment to the China trade Act, greed by Serverary Hoover, a bill for government purchase and result to the farmers of \$10,000,000 of nitrate and calcium arsenate, the Alaska fisheries bill; a measure to extend the time for making payments on reclamation prejects and the proposal to create a special

CHANGE IS PROPOSED IN HOSPITALIZATION

ANT FOR TUBERCULAR VET ERANS IS SOUGHT IN SOUTHLAND

(EXCLUSIVE DISPATCH.)
WASHINGTON, Feb. 27.—A co

treating tubercular World War vet hospitals will bring together the egation in a conference tomorrow world War veteran of San Francisco in the direction of Beta. He says that it was impossible for anyone to have had any fore-thought of the change, but that it was indeed a fortunate bit of chance that some one who understood celestial bodies was looking in that direction.

WOULD DRY UP EARTH

Dr. Russell said that the earth would not be consumed if the situation should theergo the same change and suddenly grow tent times hotter. However, he maintained that the entire population would be summarily wiped off by the intense heat and the surface of the earth scorched and dried of all moisture.

Perhaps the often-debated possibility of the world's coming to an end is not untrue, he said, but until he has observed carefully and received the observations of astronomical stations which have an equipment superior to the one at Princeton. Dr. Russell declines to offer an opinion on the significance of the change in Bets Cett.

Bonar Law, in addressing a min-ers' delegation, said there was dis-tinct evidence that the general trade was improving and there was a boom in the coal trade and, as miners' wages automatically went up with the improved trade, they would soon be in a much better position.

BRITAIN STAYS

A resolution was adopted in ref-British colonies, which pledged co-British colonies, which piedged co-operation in manufactures of rub-ber products in Great Britain and other countries in presenting a protest to the British govarnment, and in taking other stops neces-sary to bring about revocation of the law increasing the duty. ACT CALLED UNSOUND

ACT CALLED UNSOUND

The restrictive act, it was declared, is unsernd in seconomic principle and "highly detrimental" to manufacturers of tires, automobiles and accessories in this as well as other countries, and constitutes "an unwarranted and extremely heavy tax and burden on automobile users and every user of rubber products throughout the United States and the world."

Declaring that the increased duty since last November 1 had increased the cost of crude rubber at Singapore from 14 to 37 cents per pound, the conference predicted it would cost the American government at least \$160,000,000 annually.

Approval of the administration's on the Rio Gallegos in Southern Approval of the administration's pian to develop, if possible, production of rubber, sisal and nitrates, was expressed in another resolution, which authorized appointment of a committee to advise with and assist the departments of commerce and agriculture which expect to conduct extensive experiments. in solicitiously.

"Oh." cried Mrs. Farley. "My husband hasn't been killed has he? He just left the house."

Just then James Farley. Jr., 3 years of age, appeared on the porch, his face unusually grave and in his arms a shoe box.

"Are you the undertaker?" he asked Conklin, and added:

"I phoned for you. Fluffy is dead. I want her to have a nice funeral.

Fluffy was in the shoe box. She was a white kitten. Conklin promised such a funeral as little boy's kittens rarely are given. opened in state today by the Duke of Abercorn, the new Governor, the ceremony following the general lines of that with which the British Parliament is opened at Westminster. The Duke rode through the streets on his way to Parliament House, heartily cheered by throngs of the Belfast population masked behind the troops that lined the thoroughfares.

The King's address which was

MINISTERS TOO POOR, DIES IN OBSCURITY

CZAR, PASSES OUT IN NEW YORK

(BT A. P. NIGHT WIRE.) W YORK, Feb. 27.—Dr

dinand Seegar, a distinguished physician, decorated by the Czar of Russia for his skill, who renounced the splendors of office that he might minister to the East Side poor, died today at the age of 74 years in a shabby little flat on East Ninety-third street.

News of his death from pneumonia soon swept the East Side and scores of patients whom he had treated without charge flocked to his four-room home to express their sympathy to his widow and daughter. Thousands are expected to follow his casket at the funeral Thursday, for his imposing figure—6 feet, 6, he stood was ever present in times of need and sickness.

A graduate of Reidelburg and a holder of thirty-two diplomats. Dr. Seegar was regarded as an authority on the eye, ear and throat, and wrote on medical topics. In 1869 he was one of those who founded the Hahnmaine Hospital in a one-story building on East Firty-fifth street, which he furnished with thirteen beds and befding he got from the home of his mother.

TEMBLORS RECORDED ON SEISMOGRAPHS

[BY A. P. NIGHT WIRE.] ST. LOUIS, Feb. 27.-The seiswould soon be in a much better position.

The Labor party is about to bring a resolution before the House of Commons calling on the chambers of France and Belgium to appoint committees to meet a committee of the House of Commons to discuss the occupation of the Ruhr. The object of this resolution, Gordon Ramsay, the leader of the party, says, is to stop the secret bargaining now going on. mograph at St. Louis University this afternoon registered an earth-quake of moderate intensity about 2250 miles southeast of here. The registration began at 2:37 and con-tinued until 3:08 o'clock.

WASHINGTON, Feb. 27.-Slight WASHINGTON, Feb. 27.—Slight earth tremors were recorded to-day by Georgetown University seismograph. The disturbance began at 3:44 p.m. and continued for about twenty minutes. Father Tondorf, in charge of the observatory, estimated the center of disturbance at about 2300 miles from Washington.

Arizona Senate Talks, but Whole Nation Must Help. General Criticism is Called Conference is Told Takes No Action

Winsor Warns Colleagues of Better Marketing Needed, Pueblo Situation Not Bad, Flood Dangers Says Expert

House Believed to Favor Co-operative Plan is Uzged Government Gives Much Aid Ratification Now

PHOENIX, Peb. 27.—The Senate

PICTURESQUE WARNING
He gave warning. "When the
river goes through the levees again,
all hell won't stop it!" Ratification would obtain early protective
action. He answered those who
claimed the water as Arizona's
property with the fact that the nation has undisputed ownership of
mines, lands and forests, and has
control of the placing of waterpower works on the streams.

The pact takes nothing from
Arizona, he said. Authorities were
read that told that any reservation
or addition to the pact would mean
failure to the whole beneficial plan,
the greatest emergency measure
ever before an Arizona Legislature.
Amendments mean merely dodging
and avoiding an honest vote
against the pact. The argument
will be continued tomorrow aftermoon, with possibility of a vote.

RIVER PROBLEM TACKLED AGAIN ber dealers and forestry expert to be held in San Francisco

ship of Herbert Hoover, a meeting of the people of the seven South-western States will be held late in western States will be held late in April or early in May, under the auspices of the League of the Southwest, according to Arnold Kruckman, secretary-treasurer.

The purpose of the meeting will be to devise a new basis of agreement among the States interested. The meeting is to be at some point in Southern California, to be determined within the next ten days. "It is impossible to secure any

all applications for development permits.

"It was also made clear that no agency of government is expected to countenance any Colorado River development project antil such agreement is reached.

"Obviously the Colorado River projects are effectually arrested if Arisona fails to ratify the pact. Without consent of all the interested elements in the several States no action may be had at Washington. And without essential action at Washington no project can be carried out.

"It is therefore imperative that the people of the Southwest speedily set together and find'a new basis of agreement. Members of the League of the Southwest believe a broad discussion may develop the lines upon which such agreement may be formulated."

PLAN IS COMPLETED FOR PERKINS FUNERAL

(ST A. P. MIGHT WISE.)
OAKLAND, Feb. 27.—Arrang OAKLAND, Feb. 27.—Arrangements were completed today for the funeral tomorrow of former United States Senator George C. Ferkins, who died at his home here yesterday. The services will be under the direction of Cakland Lodge of Masons No. 183 and the Elue Lodge Ritual will be read. Interment will be in an Oakland cemetery.

The honorary pailbearers are former U. S. Senator James D. Phelan, John H. Skinner, an official of the Bank of Italy in San Francisco; Arthur Goodall, James K. Moffitt, vice-president of the First National

PRIMARY HIT IN EXPENSE QUIZ

Political Parties Slated to be "Vestigial Remnants"

Large Sums in Elections Unaccounted For

Returns Filed No Indication of Campaign Costs

[BT A. P. NIGHT WIRE] BAN FRANCISCO, Feb. 27slopment of the direct primary and other offices from partisan itical parties in California beevidence produced here today be-fore an Assembly committee in-vestigating the election expendi-tures of candidates in California. The language was appointed.

The other principal point developed today was that there are large sums spent by all candidates which under the present law cannot be brought to an accounting, and that therefore the returns of expenditures filed by central committees and the candidates are not truly indicative of the costs of campaigns.

ESTIMATED COST

Former Republican Chairman Ray Benjamin estimated the cost of a State-wide campaign for a single candidate in California at about \$125,690 for a primary and an election. Randolph V. Whiting, chairman of the executive Committee, of the Demecratio State Committee, estimated that it would cost \$200,690 or more to run such a State-wide campaign. Both said that if general committees actually handled the funds and ran campaigns for parties the cost would be little more for a full ticket than their estimates for single offices.

The only remedy for the existing conditions was suggested by Mr. Whiting. He said if the limit imposed by law on candidates, expenditures was taken off, and a law adopted requiring all contributors of money to report at stated intervals through each campaign to some regular authority, the publicity and the general control of such work would help to hold costs down, and make expenditures more regular.

usefulness and the industrial vantages of the cities named be lessened.

The trip to Porto Rico, once it has been undertaken, is one which could be done in six days, (apt. Lamphir said, but this will got be attempted. Ten days will be devoted to the outward-brand trip, according to present plans, while the whole trip, including the return to Washington. D. C., will not be a banquet at the American Embassy this afternoon, and left for Buenos Aires this evening on the presidental train.

LADY ASTOR ACTS TO SETTLE BERLIN HAS BOUNDARY ISSUE SHOPLIFTER

Senator in Arizona Would Meet Californians

Bill Provides Naming of Commissioners

Investigation and Report on Border Line Asked

distilleries and breweries, today are wondering just whom Lady Aster meant when she let go with her PHOENIX, Feb. 27.—Full adjustment of any boundary line dispute between California and Arizona is contemplated by a bill offered in the Arizona Senate by first voiley of heavy oratorical artillery fire last night which marked a change of tactics in her antialcoholic crusade.

Hitherta "Lady Nancy" has been very general in her tactful attempts to chase Britons away from the rum jug and beer keg, but at Bristol last night she got dangerously near personalities.

"I don't like people who represent the drink trade to be posing as admirals, generals, commanders, captains and the like," said the legislator from Virginia. "Bngland is supposed to be the cradie of liberty. All 1 can say is the brewers are rocking the cradie. Il like people who come out into the open."

Lady Astor assured her hearers that she was not out for the Arisona Senate by President Winsor, who represents Yuma, one of the border counties. It provides for the appointment of the Attorney General and State Engineer as boundary commissioners, confer with commissioners who may be designated by the Governor or Legislature of California. The commissioners, is conjunction with the Californians, are "to investigate and report as to the longest the two States, with respect to the present channel of the Colorado River from the southern boundary of the State of Nevada to the infernational boundary between the two States and Mexhoricolor and the colorado River from the southern boundary of the State of Nevada to the infernational boundary between the two States and Mexhoricolor and provides for the control of the Colorado River from the southern boundary of the State of Nevada to the infernational boundary between the two States and Mexhoricolor and the colorado River from the southern the colorado River from the southern the colorado River from the colorado tret volley of heavy oratorical arbrewers are rocking the cradle. I like people who come out into the colorado River from the south-open."

Lady Astor assured her hearers that she was not out for the American brand of prohibition. All "we ask is to give the people a chance of voting on what they want," meaning local option.

But volunteers to aid even this moderate campaign would be welcomed by Lady Astor apparently, for she sounded a plaintive note when she said. "It is not a easy task for a weman to tackle the question and to have the calumniation of the most highly organised and unscripulous / trade in the world."

aucourt, Waereghem and Brookwood.

The association also is organizing an "overseas week," beginning
April-1, for the object of raising
a fund, the revenue from which
will insure permanent decoration
of the graves of the American soldiery buried abroad.

The American Ambassador, the
Consul-General, the president of
the American Chamber of Commerce in Paris, and two prominent officials of the American Legion have become trustees for the
fund, which it is hoped will total
at least \$200,000.

IET A. P. NIGHT WIRE.]

NEW YORK, Feb. 27.—Counsel for Mrs. Paulette Baludes today told the Supreme Court jury tryling her on a charge of murder, that she had shot and instantly killed Cocar Martelliere, broker, in his office last October, but that she was "in a condition of mind where she did not know the motive and quality of her act."

The lawyer, James A. Turley, opening for the defense, said he intended to prove that Martelliere had deceived his client and betrayed her husband, now dead, in his greed for wealth and that finding out at last the treachery of the broker with whom she had been prey to great agitation.

Mrs. Saludes, he added, would take the stand in her own defense tomorrow to tell how the had been spurned.

Seepages on Coast Draws Some Indiana Politicians Called Promote Peace long Peoples

WASHINGTON, Feb. 27.—President Harding today effected the greatest change his Cabinet has undergone since his administration began nearly two years ago by designating Dr. Hubert Work of Colorado, now Postmaster General, to be Secretary of the Interior, succeeding Albert B. Fall of New Mexico, and Senator Harry S. New of Indiana to head the Postoffice Department, in succession to Dr. Work.

The nominations of Dr. Work and Senator New were sent to the Senate and promptly confirmed that of Senator New almost immediately in open session in accordance with the courtesy always extended sitting Senator, and that of Dr. Work late in the dependence of the saverational in additions of Dr. Work late in the day after it had been referred to committee in open session and reported back. The two will take up their new duties next Monday when the resignation of Secretary Fall, announced several weeks ago, becomes effective. Senator New retires from the Senator New reterior the respective countries and o

Dr. Work the President turned toward selection of a man to head the Postoffice Department. Quite naturally he turned to Senator New, who was one of his "losest friends in the Senate and who since has generally been considered as close to the White House as in the Senate along the Harding, making up his original Cabinet, tendered Senator New a place, but the Senator preferred to serve out the remainder of his term in the Senate.

No sooner had reports become current that the President was considering Senator New than opposition to the appointment roes in the Senator's own State. Representative Will R. Wood of Indianapolis, who is chairman of the Republican Congressional Committee, announced he intended to oppose and did oppose in a conference with the President the selection of Senator was defeated for renomination in the State primary last year by former Senator Albert J. Beveridge, and as a consequence should "take his medicine." There were reports that other Indiana political leaders also were opposed to the selection of Senator New.

Ends Ddnuff; Falling Hair!

Immediately your hair becomes beautiful. Ju moisten a cloth with Danderinand draw it carebeautiful. Ju moisten a cloth with Danderinand draw it carefully through it hair, taking one small strand (a time; this will cleanse the h of dust, dirt or any excessiveli—in a few minutes you willie amazed. Your hair will beyavy, fluffy and possess an imaparable softness, luster and rest appear twice as thick and abdant—a mass of luxuriant, glin colorful hair.

Besides besifying the hair, Danderine eractes dandruff; invigorates the slp, stopping itching and fallen air.

Danderine is a best, cheapest and most delitful hair corrective and tonic. It is to the hair what fresh shows of rain are to vegetation. It see right to the roots, vitalizes and strengthens them. Its stinating properties help the hair torw long, heavy, strong.

You can sury have beautiful hair, and lots it, if you will spend 35 cents f a bottle of Danderine at any dg store or tollet counter. It is it greasy, oily or streng. PEAL AGAIN Long-Silent Towers Made Famous by Hugo to Echo

RIVERSIDE CHAMBER OF COMMERCE

HE drawings we have used in this advertisement have been made from photographs of Riverside homes. They tell you very little of the real beauty of this city of ours. You can't draw pictures of soft breezes and the perfume of flowers. With black ink and white paper you can't show the vivid green of grass and trees, the flashing color of spring blossoms or the pastel hues that paint the mountains at sunset time.

You must come to Riverside to know these things. We invite you. Be our guest and know this friendly little city that has been waiting to welcome you.

Facts about Riverside,

- "Mission Inn," one of the wonderful most famous hostelries.
- -its population is 23,000.
- -th bank clearings were \$30,000, 000 in 1922.
- -its building permit \$1,458,429 in 1922,
- in 1922. -it has 200 miles of paved, tree-lined streets.
- its schools, parks and churches are second to none.
- eit has 15 orange-packing houses and a famous marketing organ-ization.
- it is the Pole center of the Coast, with 3 fine fields.
- its building lots cost 20% to 50% less than in less attractive cities. -it is a great poultry center, second in California.
- -it has cheap, municipal light and
- -it is pre-eminently a city of beautiful and comfortable homes.
- it wants more industries and offers every facility vironment most favorable for labor.

MIDDLE WEST NEWS IN BRIEF

THE GUL-BRAN-SEN'S UNRIVALED ADVANTAGES

THE Melody Indicator (a Gul-BRAN-sen patented feature) assists the player in locating the melody and harmony notes in player roll music.

In this way, it is possible for one to accent the melody notes with one's own personal touch, or to antirely eliminate the melody notes, should one desire to play the piece as an accompaniment only.

The Transposing Knob enables one to transpose a song to any key that may be desired, to suit any particular voice.

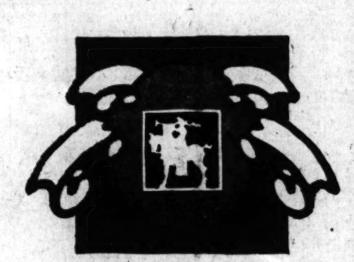

If you have not heard the Gul-BRAN-sen with Melody Indicator you have a surprise awaiting you. A visit entails no obligation.

Gul-BRAN-sens may also be had with reproducing attachment.

BANTA ANA, Feb. 27,-Yester

By a "Times" Staff Correspondent
LONG BEACH, Feb. 27. — The
body of William Petran of Les
Angeles, first fatality of the Long
Beach bathing season, was recovered today near the Pine-avenua
Pier by C. Middleton, employed on
the pleasure-boat Moose. Petran
was drowned last Sunday while
swimming near the Silver Spray
Pier. Spectators on the shore saw
him go down, and went to his rescue in boats, but were unable to
reach him. He was 55 years of
age, and lived at 100 Overton
street, Los Angeles.

SIGHT-SEEING BUS PERMIT REQUESTED

By a "Times" Staff Correspondent
VENICE, Feb. 27.—It was announced this morning that Charles
G. Newman had applied to the
State Railroad Commission for permission to operate sizht-seeing
busses between Santa Monica,
Ocean Park: Venice, Long Beach,
San Diego, Old Mexico, Riverside,
Redianda, Pasadena, Hollywood,
Glendale, Santa Barbara and Redondo.

PASTOR SUCCUMBS RUG THIEVES BUSY

received here today of the the in Amherst, Mass., of Mrs. B. Clancy of this city. Mrs. acy reached New York about weeks ago from a trip to Belm, England and France, and relatives in American to the former home. She died neart disease. She leaves a hused Rev. W. B. Clancy of this, and four children.

By a "Times" Staff Correspondent VENICE, Feb. 27.—Continuing to ply their trade in the Canal City, rug thieves entered the home of St. Clair Ormsby, 411 Speedway, last night, and escaped with six valuable oriental coverings. The thieves confined their efforts to rags alone, for valuable silverware and jewelry were left untouched.

QUARTET ARRESTED IN LONG

R. C. Sturgeon

TULARE, Feb. 27.—R. C. Sturgeon, well known Tulare benker and cattleman and former rancher, was recently appointed by Gov. Richardson to succeed the late L. W. Bardsiey as Supervisor from the district of Tulare county.

Mr. Sturgeon came to Tulare City ten years ago and interested himself in ranching with his father-in-law west of town for about four years. Later he took up breeding of purebred cattle and hogs, takting the lead in the organization of the Durco Breeders Association, as well as in the Tulare County Live Stock Association. Under the name of the latter he took a prominent part in the establishment of property now used

Under the name of the latter he took a prominent part in the establishment of property now used as fair grounds. It was first used for the sale of the stock and for a number of years was held in the name of Mr. Sturgeon as trustee. The Tulare Board of Trade later absorbed this property for fair purposes and it is now used by the county as a whole.

Two years ago Mr. Sturgeon helped organize the Farmers' State Bank of this city and is now vice-president of the institution.

AT ANGELES VISTA

AT ANGELES VISTA
The first round of the midseason Golf Tournament at the
Angeles Vista Golf Course started
last Sunday, when sixty-five golfers
were counted as having qualified
for the first round.

A large amount of excitement is
being manifested over this tourney,
and especially over the first round.
A number of the players were out
Sunday to play, their initial round,
although it may be played at any
time during the week, and the
scores which were turned in by a
number of the players were far
from being poor. The winner of the
tournament will be awarded a
merchandise order on one of the
local sporting-goods stores.

of age, and the father of cleven children, is a Chinese, as you may have suspected. More than that he is a base-ball player, probably the most celebrated in the Hawalian Islands. Occasionally, ball players insist on taking their families to the training camp. If you were a club owner how would you cajoy having nine players of that sort on your payroll in the spring.

Mike Jay, in the Henolulu Star-Bulletin, tells something of the diamond activities of Charles Pung En Sue, which is his full land somewhat occidentalized name. The clipping was mailed me by E. W. Lindburg of Honolulu, formerly one of our finest fans at Washington Park.

Six of Suo's eleven children are girls, and the other five play haschall. One of them is named Tyrus, which possibly is more than a merce coincidence. LEWIS MEETS KOLOFF ST. LOUIS, Feb. 27.—Ed "Strangler" Lewis, wrestling cham-pion, will meet Dan Koloff here March 7, it was announced to-

GRAPPLERS END TRAINING

Walter Miller and Basanta Singh Ready for Mat Clash at Mercury Club Tomorrow

Walter Miller and Basanta Singh wound up their training yester-day. They will clash tomorrow evening at the Los Angeles Athletic Club and a torrid mat battle is expected.

Club and a terrid mat battle is expected.

The contestants are well satisfied with their condition and are anxiously awaiting the sound of the gens. In the matter of poundage there will be little difference, and because of this a hotly-waged combat should take place.

Basanta, the Hindu grappling sensation of the Northwest, is said to be one of the speedlest mat men ever seen here. He has been waiting and working for a long time for a crack at Miller, for he believes a vic-

Exide

The laundry, the baker, and the ice cream maker HAVE you noticed the great increase on the city streets of those busy trucks that make deliveries

from door to door and do it all with such silent efficiency? They are propelled by storage batteries-powerful Exide Batteries and their unique service is becoming generally recognized by department stores, laundries, and other businesses that have short hauls and frequent stops to make.

There is scascely a kind of transportation in which Exide Batteries do not play an important part. They light railroad trains and operate switches. They propel those man-saving, burden-bearing little industrial trucks and tractors that you see in railroad stations and modern industrial plants.

Airplanes use Exide Batteries for the spark of ignition. A majority of the world's submarines are propelled under the sea by huge Exides. Beneath the surface of the ground Exides run the locomotives that gather coal.

For your automobile

Of all the Exide Batteries used in transportation. perhaps the one that interests you most is the battery that starts and lights your automobile. The first electric-starting car used an Exide, and more cars leave the manufacturers' hands today equipped with Exides than with any other battery.

Ruggedness and power are built into the Exide Battery. It keeps its youth and lasts so long in continuous service that it is the most economical battery for you to own, There is a nearby Exide Service Station where you can get the right size Exide for your car.

> Inquiries about batteries other than automobile batteries should be addressed to

It has been denied that New York Giant owners have stock in Boston Nationals.

It has been denied that New York Giant owners have stock in the red was defined to offer serious competition. Their only chance was belief that the Marchank stables, took the first race, winning by five lengths over the outsider, A. Lester.

I found that neveral of my players had been approached by the Federal League would have died just the same.

I found that several of my players had been approached by the Federal League agents, but there for two leagues. Consequent was nothing doing. I found that several of my players had been approached by the Federal League agents, but there was nothing doing. I found that several of my players had been approached by the Federal League agents, but there was nothing doing. I found the first race, winding the cause he was dropping somewhat in class in the field that somewhat in class in the field that he work of the Marchank stables, took the first race, winning bonewhat in class in the field that the somewhat in class in the field that he work of the Marchank stables, took the first race, winning to the Marchank stables, took the

same.

I found that several of my players had been approached by the rederal League agents, but there was nothing doing. I found also that, during my absence, the New York Club, my employers, had traded off Herzog, my third baseman for Bob Bescher. This was quite a surprise to me. It resulted in my having to make several trades to strengthen up my club again.

In the bust up of the Federal League I took over Benny Kauff and Eddle Rousch. I paid \$25,000 for Kauff, figuring that he would be a good attraction on account of his hitting, when much talked about.

about.

Often I have observed criticism of what sport writers call my mistake in letting Rousch go and keeping Kauff. As a matter of fact I bought Rousch because nobody else would take him at that time. He was not considered a star. I paid \$6000 for him. I took him on the recommendation of a couple of old players, figuring to use him in a trade—anyway I decided not to let him get away at that price.

ceen found in the Philippine Islands by the Standard Oil of California, according to an eastern report credited to Raiph Arnold, geologist of this city. Mr. Arnold, geologist of this city. Mr. Arnold, with his associates, is interested in the same field, and while no wells have brought in on production, it is believed that this development will materialize soon, and that the exploitation of the Philippine field will benefit consumers of petroleum products in the Orient, who are now compelled to procure their supply from the Pacific Coast.

Mr. Arnold is quoted as expressing favorable views on the outlook in Canada. The Sweet Grass country is being watched closely by oil men because of the recent discovery across the line in Montana. The Imperial Oil Company of Canada, the Canadian subsidiary of the Standard Oil Company of New Jersay, and auments a related.

MAY STORES INCOME

a sim in excess of \$1,000,000 for the period ended Jan. 21, 1923, according to preliminary reports appearing in the Wall Street Journal. After depreciation, taxes and preferred dividends, net revenue resulted in approximately \$5,000,000, or about \$10 a share on the \$20,000 shares of \$50 par common stock now paying \$5 a share.

This compares with a net before preferred dividends of \$4,052,593 in the year ended Jan. 21, 1922, and \$4,708,674 in 1821.

During the year, the May Department Stores maintained its record of earning between 7 and \$ per cent net on volume of goods, which compares with an average profit of about \$5 per cent made by Gimbel and Macy, Marshall Field is said to have made an average \$4.5 per cent on sales volumes over five years, and Associated Dry Goods, with eight stores in 1921 earned 4.7 per cent net on a turnover of \$75,471,000.

DAILY TRADE TALK

One of the most attractive in-door sports engaged in by the Cal-dating with an already existing in-stitution.

EXECUTIVE CURB tion of bills tending to regulate or subjugate or give the gate to banks and bankers. When everything else falls, a bill to do so and such to the bank act is always in order.

During the first half of the current session approximately 2006 measures were introduced, and in this mystic mase of statesmanship a bank act amendment is never very far from a given point.

In an effort to reduce this mass of embryo legislation to something the intelligent comprehension, therefore it would, have prevented at the state three superintendents from assuming important positions with banks immediately upon their retirement.

The First Company America

WAY back in 1685, the first industrial stock com-A pany in America was formed in the city of New York. Its papers read: "A proposall of settling a fishery in these parts. It is resolved that ye best way will be by a company, and £10 to be a share."

In 1800 there were no more than a hundred corporations in the United States-more than half of which were in Massachusetts. Many of these were close corporations-in fact, until after the Civil War, most industrial corporations sold shares to only a limited number.

It is a far cry from that small fishery and "210 to be ye share" to the great businesses of the present.

But through the work of the investment houses millions of individuals have become owners of stocks and bonds, making possible that extensive participation of capital in industry, which has brought about the rapid rise of this nation to premier industrial power.

This is the ninth of a series of advertisements depicting the origin and development of the use of I and securities. Copyrighted 1921 by Morris F. Fon & Councerty, Milwanian

Improved Finances Raising Bond Prices

Many industrial bond issues, marketed during the past year or eighteen months, were re-financing measures eded as a consequence of the busi-

The extent to which any given business use was off normal as a result of the depression was often reflected in the price its bonds commanded.

And now, vice versa, the extent to which it has returned to normalcy is also being reflected in the quotations on its bonds.

Many concerns have written off their losses, in whole or in greater part,—an improvement in their finances that is already beginning to manifest itself in higher bond prices. The shrewd investor, noting this, will do well to crowd his buying NOW while the advanced of a right market is still to vantage of a rising market is still to be obtained.

Write us for a list of industrial bonds which we regard as still offering this opportunity for gain.

Have you made your income tax return?

NEW YORK STOCK EXCHANGE

NEW YORK, Feb. 27.-Prices turned upward during the latter part of today's stock market after three days of reaction which had been attributed in many quarters to the higher money and local Federal Reserve rediscount rate. A bullish demonstration in American Can, which established a new high record at 101 3-4, and heavy action of the copper shares sig-nalled the turn of the market but it came so late in the session that not all shares which had been heavy earlier participated, making the close irregular.

Several factors contributed to including slightly lower call money rates, higher prices for cotton, cop-per, zinc, and steel products, the resumption of dividends by the anaconda Copper Mining Company, and more favorable January rail-

resumption of dividends by the Anaconda Copper Mining Company, and more favorable January railroad earnings statements.

Virtually all the copper stocks sold at new high levels for the year, Anaconda at \$1 7-5, Utah at 72 1-4. Butte and Superior at 35 5-3 and Cerro de Pasce at 45 %. Kennecott duplicated its previous high of 43 1-4. There were a few conspicuous strong spots in the railroad group, notably Atlantic Coast Line, Great Northern preferred. Louisville and Nashville, Western Pacific and Lackawanna, of which gained a point or more, but several others closed at net losses, Chesapeake and Ohio dropping more than a point. The first thirteen railroad/statements to be made public show combined net income of slightly more than \$19,000,000 for January as compared with \$24,800,000 in December and slightly less than \$10,000,000 in January of last year.

Some of the motors accessories stocks developed marked strength, Stewart-Warner creating a new peak price at 100 and closing 3 3-4 higher at 93 %. Bosch Magneto closed 2 5-3 points higher at 47 %, buying being influenced by reports that January slipments, totaling over \$560,000, were 60 per cent greater than those of the same month last year. Coca Colajumped 2% points on overnight announcement of an extra dividend of 50 cents a share.

Baldwin was again reactionary, closing nearly a point lower at 136 after having touched 137 3-8. United States Steel common, selling ex-dividend closed at 106 %. Studebaker crossed 120 but fell back later to 119 %, up 5-8. Burns Brothers A and B. Kelsey Wheel, Iron Products; Union Railways, Levestment preferred; Uniteo Retail Stores and Woolworth, all up 2 to 4 points, were the other individual strong spots.

Kresge and Liegett and Myers, each of which dropped 5 points, were the other individual strong spots.

Kresge and Liegett and Myers, each of which dropped 5 points, were the other individual strong spots.

Forjign exchanges were firm, demand sterling selling around 470 w, an overnight rain of more than a ching in rates.

The time money and commercial paper markets were quiet with no change in rates.

Forjign exchanges were firm, demand sterling selling around 470%, an overnight gain of more than a cent. French francs sold as high as 6.17 dents but dropped back to 6.13 in the late afternoon. Other Buropean rates also eased after an early display of streagth.

Day's total sales 926,000 shares.

Twenty industrials averaged 102.19; net gain 39. High 1921, 103.59; low 98.96.

Twenty railroads averaged 89.53;

Twenty railroads averaged 89.53; net loss .23. High 1923, 90.42; low 84.53.

NEW ISSUE

Dated March 1, 1923

\$3,500,000

Illinois Coal Corporation

First Mortgage Sinking Fund Gold Bonds, Series "A" 7%

Due March 1, 1943

Interest payable March 1 and September 1

To be presently issued \$3,500,000

Redeemable as a whole or in part at any time upon thirty days notice at 107% and interest during the first ten years; at 105 and interest during the next five years; and at 102% and interest during the last five years. Coupon bonds in denominations of \$1000, \$500 and \$100 interchangeable and registerable as to principal. Interest payable without deduction for normal Federal Income Taves not in excess of 2%. The Company agrees to refund upon timely application as provided in the mortgage, the Fennsylvania and Connection taxes not in excess of four mills per annum, the Maryland Securities tax not in excess of four and one-half mills per annum, the Massachusetts Income Tax on the interest not in excess of 6% per annum.

PENNSYLVANIA COMPANY FOR INSURANCE ON LIVES AND GRANTING ANNUITIES, PHILADELPHIA, TRUSTEE

Mr. A. J. Nason, President of the Corporation, summarizes his letter to us regarding these bonds as follows:

Mr. A. J. Nason, President of the Corporation, sun property: The Illinois Coal Corporation is the largest commercial coal company in Illinois in point of acreage, owning in tee approximately 55,000 acres of coal lands and leasing 1304 acres additional. The leased property and 34,500 acres owned in fee are located in the Central Illinois field where the company has operated profitably since the acquisition of its properties. The remaining 20,000 acres are located in Southwestern Jefferson County, in the high grade Southern Illifois Field. The Jefferson County acreage immediately adjoins the coal lands of the Inlinois Steel Company and the Old Ben Coal Corporation. The district comprises the highest grade coal field with the largest production in the State of Illinois.

Mr. Edward V. d'Invilliera, coal mining expert, reports approximately 223,000,000 tons of recoverable coal in the company's Central Illinois properties, and approximately 150,000,000 tons of recoverable coal in the company's Central Illinois properties, and approximately 150,000,000 tons of recoverable coal in the southern Illinois Field.

SECURITY: These bonds will be secured in the

SECURITY: These bends will be secured in the opinion of counsel by a direct first mortgage on all the fixed assets of the Company now owned or to be acquired, and as additional security for the bonds the company will deposit with the Trustee either under the mortgage or under a separate collateral agreement all the stock of the Nason Coal Company, the selling organization of the Illinois Corporation. Additional properties may be acquired subject to purchase money mortgages and mortgages existing on same at time of acquisition.

ASSETS: The value of the mines equipment and improvements of the Company, including \$1,750,000 cash held in escrow, is approved by Mr. d'invilliers at an amount in excess of \$3,200,000 or over \$2660 per thousand dollar bond of this issue. The consolidated balance sheet of the company as of September 20, 1922, after giving effect to this financing, shows current assets of \$955,353 and current liabilities of

\$396,805. It will be provided in the mortgage that no dividend will be paid on the stock of the company which would lower the ratio between current assets and current liabilities to less than two to one or which would reduce net current assets to less than \$500,000.

which would reduce net current assets to less than \$500,000.

SINKING FUND: A minimum sinking fund beginning April 1, 1923, and operating monthly, will, we anticipate, provide for the retirement of the entire issue at or before maturity. The sinking fund is based on a payment of ten cents per ton of coal mined, the excess over and above the minimum payments to be set aside until a reserve of \$320,000 has been established. It a portion of this reserve should be used for sinking fund purposes under the carefully guarded restrictions to be contained in the mortgage, the additional sinking fund based on the tonnage will be resumed until the total reserve of \$320,000 again has been accumulated.

EARNINGS: The Illinois Coal Company and the Illinois Coal and Coke Corporation and in addition owns all of the capital stock of the Nason Coal Company, the seiling organization for the other companie. The Nokomis Coal Company has been in successful operation since January, 1917, by the same interest which will control the Illinois Coal Corporation, and although its production represents only a portion of the total production of the latter company, its earnings alone have been more than sufficient to cover interest charges on the entire issue of these bonds. The three properties above mentioned have been owned or controlled and operated by the present management since December 31, 1919, and during the two years and nine months ended September 30, 1923, the average earnings applicable to interest charges were \$304,462, or over 3.28 times interest requirements of this issue. This period includes the recent coal strike during which the mines were idle almost five months.

Legal details in connection with this issue will be passed upon by Messrs. Beckman, Menken and Griscom of New York for the bankers, and by Mr. John J. Healy of Chicago for the company. Engineering report has been made by Mr. Edward V. d'Invilliers of Philadelphia. The books of the Company have been audited by Messrs. Arthur Anderson & Company, Certified Public Accountants.

How Does the California Personal Property Tax Affect Your Holdings?

The approaching date for the declara-tion of bonds for Personal Property Tax Assessment brings very forcibly to the attention of many investors the differ-ence between the coupon rate and the net yield of their holdings.

The following bonds, selected from our list, combine this Tax Exemption with sound security and profitable yield. We recommend them for your investment.

Arrowhead Lake Company 1st 7% Bonds Due 6-1-30-35 Price 100 and interest to yield 7% Imperial Irrigation District
6% Bonds Due 7-1-43-56
Price 102.50 and interest to yield 5.80% Jewelers' Exchange Building Co.

Building On An All-Cash Basis

The Home is the Keystone of Happiness

WHEN you obtain a loan from us and build your home on our Security plan, you get the full value of the loan—which is often as high as 70%—and you become an all-cash buyer with the purchasing power of a \$2,000,000.00 company back of you. That's economy.

You arrange with us exactly what your outlay will amount to, and what your monthly re-payment in-stallments will be over a 10-year period. That's good planning.

Finally, you are assured of a su-perior house; because, for our own protection as well as yours, we see that it is built to meet our own high standard. That's satisfaction.

A LARGE CONTRACT

A. C. Townley, famous in connection with the Nonparties. League is engaged in the organization of the National Producers' Alliance which is supposed to cover the whole country. The avowed purpose is that of controlling products is that of controlling products. Members are supposed to keep account of crop acreage and cost and the local units will have a meeting quarterly to compare figures and report to general headquarters. So far as appears no provision is made for elevators or transportation systems and it is declared to be a nonpolitical organization.

An Opportunity to Own an Interest in a Well Drilling Just 350 Feet from the Largest High Gravity Oil Well in the World.

The opportunity is extended to one man, who will furnish \$100,000, or to a group of men, who will furnish this amount, to join, at 20% above his actual costs, a prominent local oil producer, in the development of a lease at Santa Fe Springs which is surrounded on every side by producers from both the Bell and Meyer sands and which has the 6000-barrel Babonnet well east of fit, the 6000-barrel Foix well north of it, the 6000-barrel Petroleum Midway well northeast of it, the 6000-barrel Elliott well west of it, and the Hamilton 4 south of it.

This lease is on one of the highest points of the Santa Fe Springs structure—is located in the townsite, was selected for this operator by two of the best known California geologists. It is conceded to be a location that will yield at least a 5000-barrel-per-day producer of \$1.50 ofl.

This lease is not for selle at any price—the epportunity to chare in its production is extended only because of the heavy drilling commitments, on other properties, that fice this operator.

This lease cost the operator \$25,000 in cash and a 50% royalty. He has at a turnkey contract for \$250,000 to a reliable drilling contractor who has onded himself to complete the well to the Moyer cand.

This operator will sell 48% of his interest in the production of this se, which is 241/2% of the total production from this lease, for \$100,000.

This leaves the operator with a \$1% interest, after revailties are paid, in the production of this issaes, which has cost him \$75,000, plus his every head charge—while the man, or group of men, will own a 49% interest, after royalties are paid, which has cost \$100,000.

A. E. WRIGHT 322 Bartlett Bldg .- (7th and Spring) Phone 823-150

> O'NE week ago, Selby & Root, Clark No. 2 was flowing 3000 barrels; it has now increased to 5300 barrels a day. This well is approximately 800 feet from the first Dodge derrick in the Huntington Beach oil field. Big men, doing business in a big way, are buying Dodge Units at \$500.

what of a surprise to the street, despite the rumors which have been in circulation for the past several days. In many quarters these predictions were not taken any too seriously because it was felt that Anaconda might deferaction until the next quarter. until the next quarte

It is generally expected that Calfornia crude oil prices will soon be
dvanced in response to the heavy
semand for oil in that quarter.
California at present has a large
urplus of crude and refined prodicts on hand, but the character of
he oil market as a whole is such
hat the drain from the Bast should
make material inroads upon this
upply and justify the higher level.

Advance estimates of prospective Moon Motor earnings were fully justified by the 1922 report just issued, which shows not for the period after taxes and preferred dividend requirements of \$773,241, which is equal to \$5.01 per share on the common stock. This compares with but 50 cents per share in the preceding year. Sales of passenger cars, parts and accessed with the second with but \$3,608,850 in 1921. Stewart McDonald, president of the company, stated that the 1922 outlook is exceptionally bright and that the Moon Motor Company should have the best year in its history. According to the second with the second passenger cars, parts and accessed to the second passeng

American Hide and Leather tanneries are now running at capacity, but while production in volume is as large as the war-time peak, the actual value in dollars is much smaller due to the lower prices now prevaiing. For instance, California skins, which sold as high as \$1 per foot, are now selling about 20 cents per foot. In addition to California skins, the company is a large producer of side leather, patent leather and specialties. Earnings at the present time are sufficient to finance the purchase of the Snyder Tannery in Peabody, Mass. This latter plant has been devoted to kid skins, but it is considered likely that American Hide and Leather will use it entirely for specialities.

DAILY EASTERN CITRUS MARKETS

RESUME DIVIDENDS IN SALT LAKE CITY

in connection with the canned fruits in this country. It is estimated that in Liverpool there are 1.250,000 cases unsoid and in London, 1,500,000 cases unsoid and in 150,000 cases unsoid and in to this the entire new crop of the Australian fruits is now in course of shipment to this country.

"In addition five of the leading packers of California re now enrole or are already here endeavoring to dispose of their remaining to dispose of their remaining stocks. The buyes have taken and have all agreed and bound themselves not to purchase and other single case until the present situation relieves made and bound crows the season of the matter and have all agreed and bound content in the special properties.

BUTTER, EGGS

The butter market was very acreally of the Mercantile Exchange both for spot and future dispose of the matter acreally of canned goods it would seem that during the years ware season to be confronted with last year will be very mail."

CANNED FOODS

There was no change in the spot canned goods situation here today, A scramble is resported on the part of local buyers to get eling peaches at a price but buyers in New York are rather particular as to the size of the fruit they buy; \$1.70 to \$1.75 is the best they can do on standard clings with the outside price ruiting on fruit of the larger six and while buyers in other carterior titles are reported to be getting stocks for prompt shipment from the Coast at \$1.45 down to \$1.85.

No changes in the Maine corn situation were evidenced during the day.

The tomato market remained quiet and unchanged on both spots and futures.

DRIED FRUIT

Chief interest in dried fruits centered in news reports from Cultorial outlings the recommender.

ORANGE MARKET

There was a good demand for small California oranges and the market showed improvement. Activity in coppers was even more prenounced than yesterday, Cerro to 15 cents per box. There were instead to 15 cents in the bond market showed improvement. Activity in coppers was even more prenounced than yesterday, Cerro this per box. There were instead to 15 cents per box. There were instead to 15 cents per box. There were instead on the stock.

Sugar issues were a shade easier on the drop and in raws and refined. Further increases in prices on steel products strengthened the general undertone of the group. Of and rubber groups were generally quiet.

SUGAR MARKET A slump of 14 to 20 points in raw sugar futures on call made purther progress to the noon hour, when active months

A slump of 14 to 20 points in raw sugar futures on call made purther progress to the noon hour, when active months had fallen some 27 to 40 points. Thereafter old-time buils came to the rescue and pushed the market almost back to where it started.

The early weakness was due to offered raw sugars at 4% cents, cost and freight. Later it developed that bids of 5 cents f.o.b. had been made by operators. With occasional relapses the main trend of the market was upward in the late dealings and the finals were within a few points of the best prices for the day. Sales approximated \$0.000 tons. The market left off 1 to 7 points lower. There were switches from March to May, 16 points: September to December, 24 to 28; May and July, 6 to 3; and May and September, 15 to 19.

In a series of reductions which aggregated \$5 points, the Federal Sugar Refining Company finally established its refined sugar question today at 8 cents a pound; Arbuckle Brothers were close behind, first cutting to \$2.50 cents, and then to \$2.5. Declines were prompted by the heavy amounts of resale material in the market.

TWENTY-THREE AUTOS BOUGHT FOR POLICE

propriation being \$17,321, in addition to which a number of old police cars were traded as part payment for the new cars. The Council also purchased three large Studebaker touring cars for the police department.

S. A. EDWARDS

"Well I'll Be Dog-Goned"

Here I've been shouting my head off for two months telling you to have your dough all ready for me on this new issue of mine the moment I broke with my announcement, and after all the popping off I've done I've only taken in \$165,000.00 yesterday and the day before.

Folks, that will never do

Here I'm laying before you an oil offer on four wells, in the greatest oil field in the world, and I know no legitimate oil operator has ever duplicated it. Now what do you want me to do? Shout my head off for a month, at big expense, to raise this money?

Listen to me! This oil investment I'm laying before you is so legitimate that I would submit it to the President of the Standard Oil Company and be mighty disappointed if he did not lay down a bet on me, and by the way they produce a little oil

I'm not appealing to the under intellligent. I'm talking to you, Mr. Man, who makes his investments on the actual merit of the project. Take your pencil and figure this deal out and answer me, could you dope out a fairer offer if you were sitting in my seat? I'm telling you it can't be done, and if you think it can, please show

Do you know that there is not one dime of promotion in this project?

Do you really appreciate that I laid \$130,000.00 in cash on the table for these two five-acre leases I'm drilling these four wells on?

Do you know enough about drilling four wells to nearly 5000 feet to know that I have capitalized this issue as close to the actual cost of the operation as is consistent with the proper protection that your investment deserves?

I admit I don't try to drill a well on the cheap. I've been in this game long enough

Do you realize that I'm not out in the sticks but operating in what is considered absolutely proven territory, where I am entitled by the surroundings to drill in 6000-

Do you realize what four 6000-barrel wells would pay you on every \$100 shot with me? Well, at the present price of oil it would bring you just better than 500% a year on your investment. Cut it in two and then cut it in two, and then cut it in two twice more and then tell me where there is an investment in the world that will equal

Answer me this before you go any further. Would you go out and lay down \$130,000 in cash for leases, work twenty hours a day for four or five months, and half the
time sleep the other four hours standing up in a drilling rig, and give all your production from all four wells to your investors until they have received back 100% on their
investment before you got one drop of oil yourself? Well, that's just what I'm doing on
these four wells, and I want to tell you a man has to be mighty sure of his territory
and mighty sure of his ability to make good before he'll play her that way.

This offer of mine is the most legitimate I have ever seen submitted by myself or anyone else, and I want to tell you right now I expect your whole-hearted support, and something more, I expect it in a hurry.

Mail me your check and just leave the rest to me. I'll promise you I'll never give you cause to be disappointed with the way I carry on. I'll give you the best that's in me from the day I spud these four babies in and as many years after as they produce

ARRIVALS AND CLEARANCES AT WORLD'S PORTS

COUE WORK Three Women Were Left

SAN FRANCISCO. Feb. 27,—The State Supreme Court today affirmed the decision of the Los Angeles County Probate Court which upheld the will of the late Francis S. Taggart awarding Sis \$45,426 estate to his sister, Anna Belle Taggart. The appeal was taken by Edna Taggart Boland, a member of the Taggart household, who claimed she was an adopted daughter and entitled to the estate. The court ruled there was no evidence to justify her claim.

GRANGE OFFICIALS AND HARDING HAVE TALK

WASHINGTON, Peb. 27.—The executive committee of the National Grange conferred with President Harding late today for more than an hour at the latter's invitation. It is understood that the situation confronting the American farmer was discussed.

Those who atended the conference included: S. J. Lowell, of New York, national master.

FIGURE THEIR OWN PARES

Late—arrivals at the ticket windows of railway stations in Baden hereafter will ask the clork at the windows in vain the price of the tickets they buy, writes a Berlin correspondent of the New York Herald. Instead, they will retire to the other side of the room, where a large and complicated table of rates is posted. There, with pencil and paper, they will multiply the rate they finally pick out from the mass of figures by the number of kilometers appearing upon the ticket they have been given and pay accordingly at the window.

The railway officials announce that when the price of a ticket is printed it becomes obsolete within a few days and passengers complain that they are being overcharged and hold up traffic. On the other hand, they add, the employees at the ticket windows cannot to be expected to keep up to date with the prices of tickets to every place along the line, so it is up to the passengers to do the figuring for themselves. HOLD WOMAN IN MURDER

Mrs. Ann Buzzi, Who Lived for Years With Man Who Was Murdered, Taken Into Custody

(EXCLUSIVE DISPATCH)

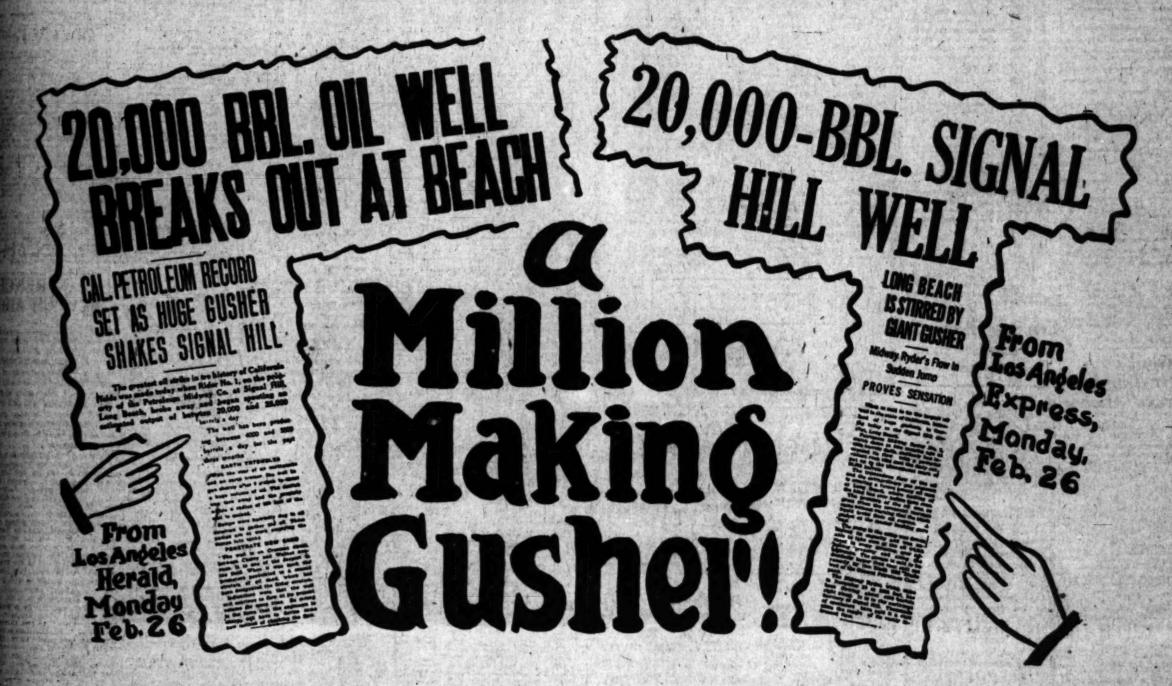

NEW YORK, Feb. 27.—In making addavit asking for the committed Mines of Mrs. Ann Buzzi, who has for seven years lived as the wife of stick Schneider, wealthy Bronx contractor and engineer, as a male witness to the murder of Schneider in his automobile at a lonely in the Bronx last evening, Detectives Hegney and Meyers disclosed afternoon new information they have gathered. Mrs. Buzzi was greed later and held as a material witness in \$25,000 bail.

Andavit recites that class the side of such a type that he could not have seen from the sidewalk whether anyone was sitting beside Mrs. Buzzi weether anyone was sitting beside Mrs. Buzzi weether anyone was sitting beside Mrs. Buzzi's denial that she had been out of the apairment at all last saw Schneider when he left at least as we Schneider when he left at 120 o'clock, they felt warranted in asking her held as a material witness.

DI ANC I AID

DEULTIMAHOR

Signal Hill Goes Wild!

Last night this news was flashed around the globe—"20,000-barrel oil well breaks out on Signal Hill"

A tremble—a roar—then a thundering geyser of black petroleum soaking the earth for blocks around.

From 4000 barrels to more than five times as much—more than 20,000 barrels per day without a second's warning!

From a \$4000 yield to more than a \$20,000 yield every twenty-four hours!

This greatest of oil wells—this sensational petroleum giant—is in the same field—in the same area area on the same structure—a neighbor—an arm-in-arm companion—a part of this same wonderful section where Miracle has six leases—where Miracle's wells are drilling today—where Miracle's wells will be drilling tomorrow—where now Miracle's leases are vastly more valuable than they were yesterday before the Petroleum Midway's 20,000-barrel Ryder electrified the petroleum world.

Now, what has this sudden, colossal outburst of wealth got to do with YOU? Nothing—nothing at all—unless you make the quickest decision you have ever made in your life. Unless you grasp this vital fact—act on it at once:

Miracle

with every essential to the mightiest oil production ever launched—MEASURES IN FEET the distances that separates it from the mightiest wealth producer of the age—Petroleum Midway's Ryder Well! One of Miracle's leases is only 1200 feet away—still another a bare 2000 feet. Beyond all question, with a certainty that may justly be deemed absolute, Petroleum Midway's phenomenal gusher proves to us that we overlie the richest oil production on the globe with ALL OF MIRACLE'S LEASEHOLDS.

Yet Miracle's Units—what few there are left—are still available to you at only \$100 each! Each a passport to potential profits—each a perpetual title to a fixed percentage of all the oil that Miracle were produce from the leases it now owns, and all the leases it will ever own—and each unit still costs you only \$100!

We Have Struck Down the Bars

Even last night our phones were jammed with rapid, successive calls from the public insisting on some of the remaining Miracle units.

So now, in this last—this eleventh hour of Miracle's sale—with the syndicate on the eve of completing the first of its wells in the very sand that has just yielded this uncontrollable gusher—we throw all privilege to the winds, and accept subscriptions from client and public alike.

We will honor orders on a strictly first come first served basis in the few remaining hours of Miracle's public offering—until Miracle's books close and close forever.

Miracle's leases, with only 4300 equal sharing, non-assessable, perpetual units—call for six wells, but on Miracle's present leases there is room for eight wells, and Miracle's units share in the same proportion in all of the leases Miracle will ever own.

At the rate Ryder is flowing today it will pay for itself every five days!

Let Miracle get five 10,000-barrel wells and they will pay for themselves every ten days. Let them equal the Ryder well, and they will earn 100% every five days!

First Come-First Served!

Picture in your mind the throngs that will be swept into our offices today on the wave of excitement that is following the announcement of the mighty 20,000-barrel Ryder. Just a second's deliberation will tell you that you will have to hurry in with YOUR order—in person, by phone or by telegraph—to stand even a fraction of chance to get the units you want.

At this hour, we must positively impress upon you that we reserve the right to return in full all

Miracle's units are still \$100 each at any of our offices, by phone, mail or telegraph.

SAYS VESSEL IS HIS HOME

De Mille's Yacht Captain Makes New Contention in Liquor Case; Owner Defends Him

The supply of asserted contraband figuor brought to San Pedro a few days ago by Capt. James McNary of the schooner-yacht Seaward, from Mexican ports, was sealed yesterday by the local customs officers, awaiting the outcome of any charges that may be preferred against its owner. Cecil B. De Mille, well-known motion-picture man. The vessel Water Agency 17:30 p.m.

Was not seised.

Yesterday afternoon a complaint was prepared by U. R. Dist.-Atty. Burke against McNary. charging him with bringing in the liquor in violation of the law Capt. McNary will be summoned to appear and answer the charge some day this week.

A contention has arisen as to the legal responsibility of Capt. McNary for the presence of the liquor on the Seaward, as he says the ship is his home, and asserts his right to have it in his possession under the law.

LIQUOR IN HOME

the ship is his home, and asserts his right to have it in his possession under the law.

LIQUOR IN HOME.

Collector Schwaebe said there was no desire to do an injustice, and if it could be proved by Capt. McNary that the boat was his home there would be nothing done, as under the law he is allowed to have liquor at his "place of residence."

The sealing of the liquor, which was small in quantity, was accomplished without any ill-humor, and the complaint against McNary has been made in the usual course of business. So far as the records go, Mr. De Mille is not in any way involved.

INCORPORATE EFFORT TO BETTER THE EARTH

IGHTBEARERS OF CALIFOR NIA OUTLINE EXTENSIVE

The Lightbearers of Californi tion recently formed here for the purpose of bringing about conditions on earth that will be on ear with those of Utopia, yester day filed incorporation papers with Secretary of State Jordan.

According to the articles of in-corporation, the association is to be nternational in its scope, scientific, humanitarian, nonsectarian, nonpolitical and nonracial. The aim
of the organization, as stated in the
articles. "is to bring to the world
enlightment and thus liberation,
through science." This will be accomplished "by the teaching of the
universal laws and forces of nature and their application to humanity's evolution."

The association also plans to encourage and maintain schools in
different, places to hasten the attainment of its goal.

The incorporators and directors
of the association are Eugene Fersen, Washington, and Eloise Clement, Katherine Hayes, and Ralph
G. Miller, all of Los Angeles.

DEEP GUTTER KICK IS BEFORE COUNCIL

The request of the Los Angeles Traffic Commission that the city reconstruct the cross-gutters on West Twelfth street, between Main and Figueroa streets, and eliminate the deep "bumps" and depressions, so that the street can become an important traffic artery, yesterday was referred by the City Council, on motion of Councilman Sparks, to the Council's Public Works Committee.

The request has already received the approval of the Board of Public Works.

This Great Distribution of Fine Furniture Ends Today

These Chairs have not been Advertised Before—at \$19.75 A revival of the quaint wing chair. Made in dull two-tone finish, very comfortable. It is also in rocker style. Suitable to use with overstuffed living room furniture—and a worth while value at \$19.75 for chair or rocker.

> Notable Among Last Day Reductions are the Following

Items:-—Ivory enamel Breakfast Table and 4 chairs in hard wood at \$52.80. —A 6-piece Breakfast Set, all birch wood, high-light dull finish, at \$159.50.

-Hand carved Italian design Living Room Ta-ble at \$149.50.

—A solid walnut Bed-room Suite of 8 pieces at \$295.00 complete.

—Six round Dining Room Table samples, in oak and mahogany fin-ishes, at \$32.50, \$42.50 and \$50.00 each.

__Together with other special price reductions—at Bullock's Today.

Overstuffed Chair \$69.50

upholstered in your choice of a wide selection of velours or tapestries. It has double spring seat construction with soft, deep back spring.

Living Room Table, \$47.50

-Size 22x60 inches, finished in two-tone mahogany high-light. Italian design. A value

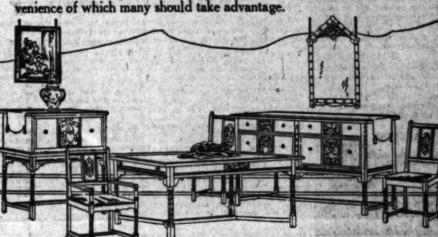

—and will mark its climax with an impressive offering of Values—

-Merely as an avenue for the disposal of items of a "clearaway" nature, today should be an important one from the standpoint of those who wish to exercise the maximum of economy-

-Recent shipments have been favorable toward making this last day notable for a presentation of fine, complete suites, as well-

Last Day of Bullock's Furniture-February it is important—but as the Last Day of Bullock's Furniture-February, marking as it does the final opportunity to share in many special pricings, it should be considered of paramount significance by all who need good furniture—
—Today—Wednesday—the Last Day of Bullock's Furniture-February—Seventh Floor. -As a day of Bullock's Furniture-February it is important-but as the

Bullock's Term Accounts Will Apply —on all furniture purchased today—this includes all special prices. A convenience of which many should take advantage.

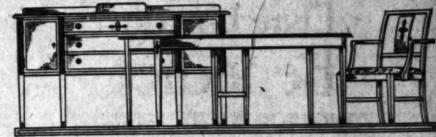

Fortune Favors With a Limited Number of These Splendid 10-Piece Refectory Suites to be Offered Complete at \$397.50 Today

The real truth about these suites is that their manufacturer discontinued making them because the demand for such remarkably fine Furniture was so limited. The price that they are being offesed at is hardly more than it

They are all hand carved and decorated. All of the exterior wood is solid mahogany or solid walnut. The surface has been rubbed down to a rich, dull finish that insures

durability.

The cabinet work is of the character that men do when their whole lives have be upon attaining perfection. Certainly these suites signal good fortune for those who se cure them, and a fitting climax to Bullock's Furniture-February—at \$397.50 complete.

A Recent Shipment of Furniture Brings Last Day Prominence to Some of These Sheraton Dining Room Suites at \$267.00 for 8 Pieces

—A suite that distinguished itself by quick selling at the early part of Bullock's Furniture-February. It is finished in dull antique and consists of 6 chairs, table and buffet.

—The chair seats are covered in tapestry. It is splendid news to be able to offer a limited number for this last day—at \$267.00 complete.

10-Pièce Sheraton Dining Set \$873.75

VERONAL POISONING FATAL TO WOMAN

le succumbed to injuries rec n France in the World War.

JURY FINDS ASSERTED MURDERER IS INSANE

It took a jury yesterday just two minutes to decide that John Cargono, who was charged with the murder of his wife, Carlotta, was insane. The insanity trial was held in Superior Court before Judge Burnell, with Dep. Dist.-Atty. Powell representing the State. Cargono is asserted to have shot and killd his wife about two months are

What a Pity

To leave film on teeth when whiter teeth mean so much

When you know what millions know you will use a new method of teeth cleaning. You will combat the film—that dingy cout — and let your teeth show luster.

Be you man or woman, let this thow you a way to nicer teeth.

Film is a blemish

Your testh are coated with a viscous film. You can feel it now. It clings to teeth, guts between the teeth and stays.
Your tooth brush leaves much of that film. The ordinary tooth pasts does not effectively combat it. So the film absorbs stains, then forms dingy coats. Tartar is based on film.

That's why beautiful teeth were seen often than now.

Now a better way

That tooth pasts is called Pop-Dentists overywhere advise it. And to careful people of some 50 nations in is bringing a new dental ecs.

Desired effects

Persodent does more than fight film.
It brings results which modern research
proves to be essential, and which no
old method brings.

It multiplies the alkalinity of the saliva. That is there to neutralise mouth scide, the cause of tooth decay. It multiplies the starch digestant is the saliva. That is there to digest starch deposits which may otherwise ferment

George O'Hara plays the mandaparon of the bank. It was Mr. Mapes's inquiry for his bonds which led to the discovery the bank had been looted, Moffere, the cashier said, having told him he was taking the bonds to Los Angeles for "safe-keeping," and would be out of town a few days. Inquiries for him were to be directed to the Palace Hotel, San Fravisco.

Mr. Mupes became suspicious, telephoned the hotel and found that Moffere had not been there. He then called in the State Bank Examiner and the institution was closed.

Small Claims Is Restricted in New Ruling

The Small Claims Court, under five from several sources since its creation by the last Assembly, was given another joit yesterday in Department No. 2 of the Second District Court of Appeals, which ruled that this court had no jurisdiction in damage suit cases.

The decision was rendered by Judge Work and Judge Finlayson, with Judge Craig dissenting. It limits materialty the Small Claims Court's power and is in line with several recent decisions in Superior Court that it is not constitutional. The decision was evoked by an appeal taken by F. R. Lauschen who saked for a writ prohibiting the Small Claims Court from hearing a damage case growing dut of an automobile accident in which he is the defendant. The court sustained his pies.

Judge Craig, in his dissenting opinion, declared the court was established by the Legislature for the express purpose of expediting court procedure and expressed the bellef that its work has been of general benefit.

Refuses to Get Excited Over Hawaii

Bo declares Edward Martindel, and he gight to know. He apent three months there with the Betty Compson Company filming the Paramount picture "The White Flower," which is the acreen attraction at Grauman's Metropolitan this week.

"The girls are not as pretty as they are rated," says Martindel. "The sun is too hot in the daytime and it is too cool in the evenings. The moon is the same color as our moons and Hollywood's sunset knecks Hawaii's sunset for a row of red clouds. Fill stick by the U. S."

GOT LIARS CLUB PRIZE
John and Merritt Powall,
who operate a barber shop at
Fourth street and flixreenth
averus, have hunched a Liars'
Club to which all their clients
are eligible for membership.
To the person telling the higgest its, while andergoing tonsorial operations, a weoden dog
with characteristics all its own,
is awarded. The champion is
parent to the pur until a bigger way with a bigrer lis appears.

Two co-eds from the university came to the shop the other
lay to have their bobs trimmed.
Upon hearing the requirements
for membership in the liars'
organization, one young lady
pondered awhile, trying to
think of a "good one." Then
hav companion spoke up;
"I wouldn't be eligible for
membership; I never tell itse."
She is at the present time
godmother of the wooden
woofer.—(Columbus Dispatch.

"DECAY" OF GLASS

"DECAY" OF GLASS

It is probable that few persons who admire the iridescence of ancient glassware know that the prismatic hues displayed are a result of the decay of the glass. When disintegration sets in the substance of the glass splits into uncedingly thin laminae, which, as the sunlight traverses them, give rise to a splendid play of colors. As in the instance of the leaves of a forest, these delicate glasses signalise their approaching dissolution by becoming more beautiful.—[Indianapolis News.

Never Stopped
Lady: Why did you become a tramp?
Hercules: The doctor's fault, mum. He told me to take walks after meals, an' I've been walking after 'em ever since.—(Medical Quip.
